

# REDEFINING MENTAL HEALTH

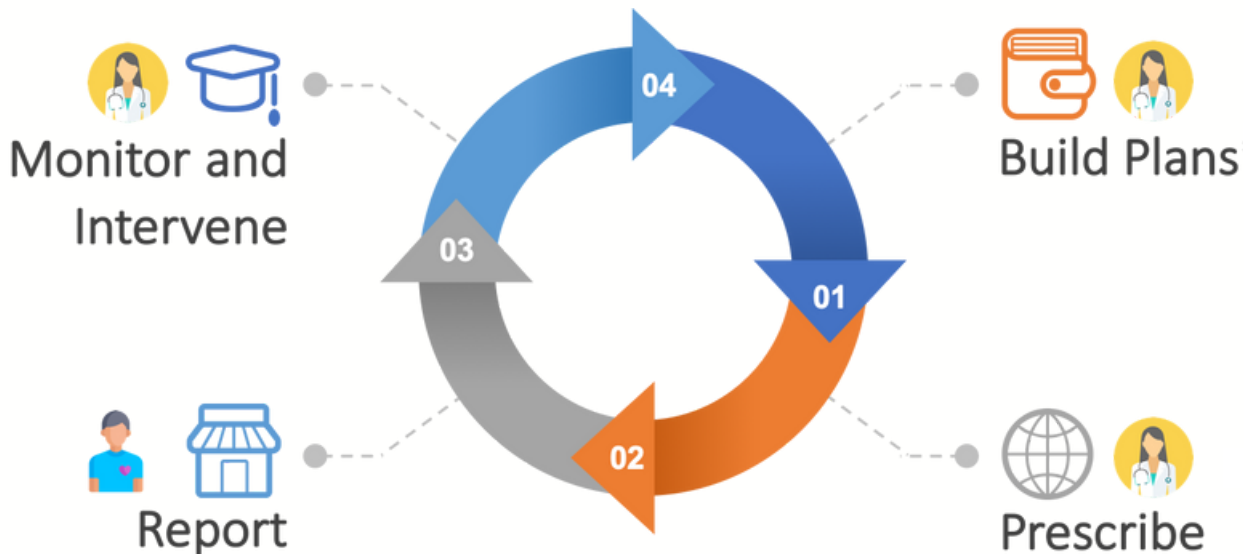

## Deliver the Next Generation of Client Experience at Home

Fitango Health offers a comprehensive client experience technology enabling you to better connect with and support your clients on their journey to better health. Leverage Fitango to reimagine your client experiences, fill gaps in your workflow, build long-lasting relationships with clients, promote meaningful outcomes, and grow your brand.

## What is Active Client Engagement?

Fitango for Mental Health™ encourages **active client engagement** with its unique engagement process to supplement gaps in your existing workflow and services.

The Magic Engagement Cycle

# Fitango for Mental Health Key Capabilities

## Complete Library of Assessments (85+), Education Materials, and Recovery Plans

- Prescribe personalized, interactive mental health programs that provide individualized instructions and track patient engagement and goals

## Empower your Clients with Digital Tools

- Provide your clients access to their mental health plan with an easy to use digital platform

## Monitor Client Progress Remotely

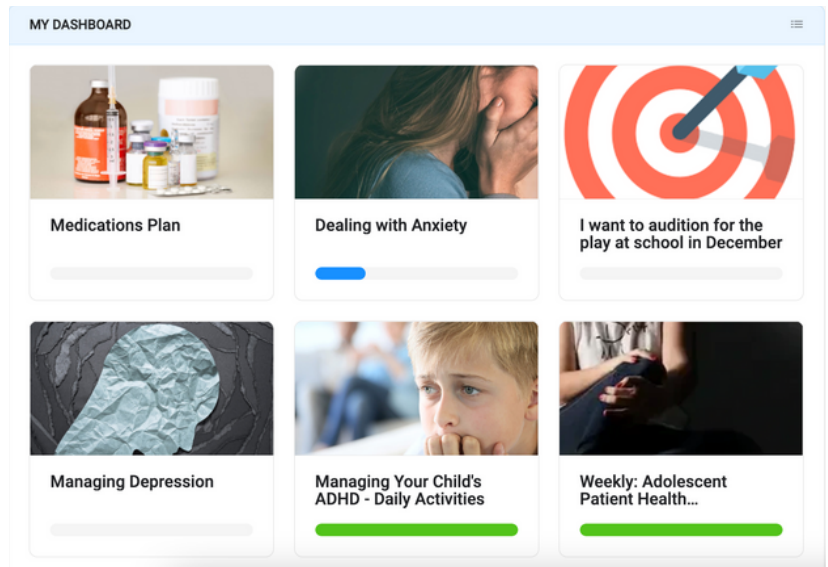

- Encourage the use of custom trackers to help your clients stay on track towards their goals and receive immediate alerts for urgent cases

## Arm Your Clients with Support

- Enable clients to leverage their support system by involving family and friends in their journey

## Stay Connected

- Connect with your clients via telehealth, secure messages, and outreach campaigns
